REPORT OF BEDFORD SCHOOL BOARD.

FOR THE YEAR ENDING FEBRUARY 15, 1902.

At the annual district meeting held March 5, 1901, Arthur W. Holbrook was elected a member of the school board for the ensuing three years.

After the close of the district meeting the school board organized as follows: President, William M. Patten; secretary, Arthur W. Holbrook; treasurer, Mary E. Manning. The districts were divided into three sections for special supervision, and furnishing supplies, as follows: Schools Nos. 1, 9, and 10 were assigned to Miss Mary E. Manning; Nos. 2, 3, 4, and 5 to William M. Patten; Nos. 6, 7, and 8 to Arthur W. Holbrook.

Thirty weeks have been furnished each school with two exceptions. No. 6 was closed the winter term, as there were but three scholars; two of those attended No. 1 and the other was too young to send away. No. 10 was cut short five weeks for lack of pupils. The school board after careful consideration decided not to run a school for less than five scholars, as this seems as small a number as it is policy to run a school for. We find there is considerable opposition to this policy however, as some are in favor of running all the schools no matter how small the number of scholars. We find it the rule in many adjoining towns to consolidate the schools more and convey the pupils to where there will be more competition and more encouragement for the teacher.

We understand that as a rule this works better than many anticipate, and after becoming accustomed to it they do not wish to go back to the small school. Like many other good ideas this is objected to at first.

We think our teachers as a rule have been a success. We have employed home talent as much as possible, and as a rule think they have given good satisfaction. In fact, every school in town but two has had home talent in it. Nos. 1, 2, 4, and 8 have had the same teacher through the year, three of these being home talent. District No. 5 school has grown from one of the smallest to the largest school in town.

Some of the registers show very irregular attendance. The parents are largely at fault in this, and it seems a pity that parents will not see what a grave mistake it is.

Tarbell's Geographies have been introduced into the schools, and a great improvement in that study has already been shown. These geographies are new and up-to-date, being just published, and containing the last census and new ideas, also new maps. The map of New Hampshire shows, among other things, the Manchester & Milford Railroad.

New book-cupboards with locks have been put in all the schools for the purpose of keeping supplies safely. There was not much repairing done the last year; there will be need of more this year. For this reason, and also by closing one school one term, we have a little more money on hand than usual, consequently we think we shall not need quite as much extra money raised this year. We would recommend that the district raise \$350 extra school money for the coming year, in addition to what the law requires.
